Ruaraka, Nairobi

Dear Sir/Madam,

RE: STEM MOTIVATION LETTER

I am writing to express my deep interest in participating in the STEM Program at FOCUS Kenya. I am highly impressed by the organization's mission to reach and equip students in institutions of higher learning and associates for effective Christian living and am eager to be a part of this meaningful work.

Having been at FOCUS Kenya for my attachment I have always desired people in The STEM Program, their leadership skills and other skills such as organization. With concerted efforts from parents and close Friends, I was encouraged to Move forward with the decision to join STEM.

I am passionate about using technology to make a positive impact in people's lives, and I believe that my skills and experience would make a meaningful contribution at FOCUS Kenya. Joining FOCUS Kenya would be an exciting opportunity for me to further develop my skills and make a positive impact on the lives of students.

In addition to my technical skills, I am also a dedicated Christian and have been a Christian Union leader at Kenyatta University. This experience has provided me with a deeper understanding of the importance of faith in people's lives and has given me the opportunity to serve and support others in a meaningful way. I believe that my faith and my technical skills would be a powerful combination during the STEM Program and would allow me to make a positive impact on the lives of students.

I look forward to a period of growth during STEM, especially in leadership Organization, public speaking, increase engagements with other people and also I have a desire to be an effective communicator

In conclusion, I am confident that I would be able to make a meaningful contribution to the success of FOCUS Kenya and support the organization's mission to reach and equip students in institutions of higher learning and associates for effective Christian living.

Sincerely,
